

Fungicidal mixtures for controlling rice pathogens

Abstract

5 Fungicidal mixtures for controlling rice pathogens, comprising, as active components,

1) the triazolopyrimidine derivative of the formula I,

and

10

2) a dithiocarbamate II selected from the group consisting of
 manganese-ethylenebis(dithiocarbamate)zinc complex (II.1),
 manganese-ethylenebis(dithiocarbamate) (II.2),
 zinc ammoniate-ethylenebis(dithiocarbamate) (II.3),
 15 zinc-ethylenebis(dithiocarbamate) (II.4) and
 bis(dimethylthiocarbamoyl)disulfide (II.5)

20

in a synergistically effective amount, methods for controlling rice pathogens using mix-
 tures of the compound I with the compounds II, the use of the compound I with the
 compounds II for preparing such mixtures and compositions comprising these mixtures
 are described.
